SURVEY SAYS... #2

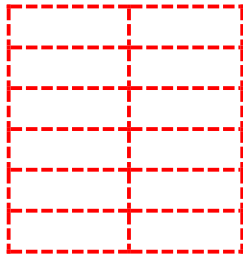

100 people were surveyed. The top answers are on the cards.

INSTRUCTIONS:

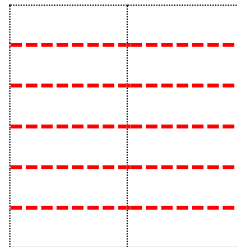

- **Cut out** the cards and put them in a pile -or- cut out sections and give one section to each student.
- Put students into groups. (**Groups of 4** works well.)
- **One student** chooses a card and **reads the question**.
- Each player takes a turn to answer the question -or- all **players** can **shout out their answers**.
- After 3 or more wrong answers, the card-holder can give the players hints.
- **Score points** in the parentheses. (The number represents how many surveyed people gave that answer.)
